**Independent Auditor's Report**

To the Board of Directors  
Gibson County Railroad Authority

We have audited the accompanying financial statements of the governmental activities and each major fund of Gibson County Railroad Authority as of and for the year ended June 30, 2009, which collectively comprise the Railroad's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Gibson County Railroad Authority, management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Gibson County Railroad Authority, as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. Gibson County Railroad Authority has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements. The omission of required supplementary information does not affect the opinion on the basic financial statements.

In accordance with Government Auditing Standards, we have also issued our report dated November 25, 2009, on our consideration of Gibson County Railroad Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial

reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in conjunction with this report in considering the results of our audit.

# **Gibson County Railroad Authority**

## **Notes to the Financial Statements**

### **June 30, 2009**

---

#### **Note 1 - Summary of Significant Accounting Policies**

The Gibson County Railroad Authority (the Railroad) was established in 1984, pursuant to TCA 7-56-201. The Railroad is a pass-through entity for state funds. Those funds are used for repairs, maintenance, construction, and rehabilitation of the rail line.

#### **Reporting Entity**

The Railroad was created by Gibson County, Tennessee, in conjunction with Madison County and the cities of Trenton, Humboldt, Dyer, Rutherford, and Kenton. The Board is composed of the County Executive of Gibson and Madison counties, the mayors of Trenton, Humboldt, Dyer, Rutherford, and Kenton, and one at-large member from each of the above areas; however, the counties and cities do not have any ongoing financial interest or responsibility for the entity. The Railroad has no associated component units.

#### **Government-Wide and Fund Financial Statements**

##### *Government-Wide Financial Statements*

The Government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the Railroad as a whole. Individual funds are not displayed.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges to users of the Railroad's services, (2) operating grants and contributions which finance annual operating activities, and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

##### *Fund Financial Statements*

Fund financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns. The Railroad has no non-major funds.

#### **Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The financial statements of the Railroad are prepared in accordance with Generally Accepted Accounting Principles (GAAP). The Railroad applies all relevant

# **Gibson County Railroad Authority**

## **Notes to the Financial Statements**

### **June 30, 2009**

---

Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principals Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The Railroad does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

Government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Revenues are recorded when earned and expenses are recorded when a liability is incurred., regardless of the timing of related cash flows.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Railroad considers revenues to be available if they are collected within 30 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred except for general obligation principal and interest which are reported as expenditures in the year due.

Major revenue services susceptible to accrual include: Department of Revenue funds and Interest. In general, other revenues are recorded when cash is received.

#### Fund Types and Major Funds

##### *Governmental Funds*

The Railroad reports the following major governmental funds:

**General Fund** – reports as the primary fund of the Railroad. This fund is used to account for all financial resources.

##### *Other Fund Types*

The Railroad has no other fund types.

#### Cash and Cash Equivalents

The Railroad considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

**Gibson County Railroad Authority**  
**Notes to the Financial Statements**  
**June 30, 2009**

---

Capital Assets, Depreciation, and Amortization

The Railroad has no capital assets.

Long-term Debt

The Railroad has no long-term debt.

Compensated Absences

The Railroad has no employees.

Budgets

The Railroad has not adopted a formal budget and is not legally required to do so.

**Note 2 – Cash and Investments**

The Railroad is authorized to invest in interest-bearing checking accounts, savings accounts, certificates of deposits, Tennessee Local Government Investment Pool, and Government Securities. As of the financial statement date, the reported amount and fair amount of the Railroad's interest-bearing deposits was \$671,236. All funds of the Railroad on deposit at financial institutions have federal depository insurance and collateral held by the Railroad's agent in the Railroad's name.

**Note 3 - Risk Management**

The Railroad has no employees. Officers of the Railroad are bonded for \$50,000 through the RLI Insurance Company.

**Note 4 – Notes Receivable**

The Railroad has loaned the City of Trenton Economic and Industrial Development Board \$100,000 at 1.5% interest in the form of a demand note. There is no collateral. This note is part of a joint effort between the Railroad and the City of Trenton Economic and Industrial Development Board to promote industry in Gibson County. The proceeds of the note were used to help construct a shell building to attract industrial prospects. The building has railroad access. Based on TCA 7-59-205, the Railroad has the authority to invest in property that is suitable for industry using the rail service.

**Report on Internal Control Over Financial Reporting and on Compliance and Other  
Matters Based on an Audit of Financial Statements Performed  
in Accordance with *Government Auditing Standards***

To the Board of Directors  
Gibson County Railroad Authority

We have audited the financial statements of the governmental activities and each major fund of Gibson County Railroad Authority, as of and for the year ended June 30, 2009, which collectively comprise the Gibson County Railroad Authority's basic financial statements and have issued our report thereon dated November 25, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Gibson County Railroad Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of Gibson County Railroad Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Gibson County Railroad Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Gibson County Railroad Authority's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Gibson County Railroad Authority's financial statements that is more than inconsequential will not be prevented or detected by Gibson County Railroad Authority's internal control. We consider the deficiencies described in the accompanying Schedule of Findings and Recommendation to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Gibson County Railroad Authority's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Gibson County Railroad Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the board of directors and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, appearing to read "Gregory N. Lee".

**Gibson County Railroad Authority**  
**Schedule of Findings & Recommendations**  
**June 30, 2009**

---

Control Deficiencies

**96-1 Segregation of Duties**

Finding: There is in general, inadequate segregation of duties to allow for a good system of internal control over financial reporting.

Recommendation: We realize that, due to staff size, it is not possible to completely segregate duties to the optimum level desired; however, we recommend that the Board review possible ways of instituting additional controls to segregate the accounting functions as much as possible.

Management Response: We will review our controls and consider ways to address this weakness.
